

# OR Tambo International North Pier Development

**Client:** Airports Company of  
South Africa (ACSA)

**Location:** Kempton Park

**Date:** September 2008

**Value:** R370 Million

Development of the new North Pier section in joint venture with Concor and Steffanuti. This included the construction of the new arrival and departures pier approximate 350m long which also included docking bays for the new A380 aircraft which were coming into use.

The existing bussing depot was demolished to allow for increased shopping and lounge areas which also incorporate revamps to the existing circulation areas. The new Bussing depot including lounge, shopping and baggage handling facilities completed the link back to the existing building.
