The Neighbourhood has a unique social, retail and leisure hub called The Square. It offers quaint restaurants, buzzing coffee shops, boutique stores, and all the city amenities you need – sensitively set amongst existing trees and buffered by a soft landscape to provide a special ambience.

A variety of restaurants are situated at the centre of The Square, offering shaded courtyard seating and candlelit evening meals under starry skies. Anchor supermarket and health and beauty stores provide convenient shopping for every necessity, yet never compromising on the natural setting of The Square where canopies and rustic facades are designed around established, sapient trees.
